

Maintenance & Project update

We currently have 4 participants in the Community Development Program that regularly put in volunteer hours.

Sporting & Recreation Facility.

- The Lean to & Craft Rooms have been completed with Lean to currently being utilized as a temporary workshop space to facilitate the use of the grader shed to house the CFS fire water truck.
- Outstanding jobs are vehicle/pedestrian delineation and all-weather pathways which will commence as soon as crews become available.
- Paving around the toilet block completed.
- An AED has been installed to meet new legislative requirements.

Community Hall complex.

- The splash pad is up and running.
- New outdoor tables for the rear of the hall are currently under construction.
- An AED has been installed in front of the town office to meet new legislative requirements.

Lapidary Work shed.

- Work to soon commence on extending the interior to facilitate 2 new cabbng machines and to house the saws and installation of a glass sliding front door.

Town water tanks

- Work will soon commence to rectify water leaks from the liners in the tanks.

Camp Ground

- The new ablution block has been installed & commissioned.
- The old ablution block has been renovated.
- An AED has been installed to meet new legislative requirements.

Cottages Park

- Two new stainless steel topped serving benches have been installed at the BBQ area.
- New BBQ's have been purchased and installation will commence as crew becomes available.

We would like to thank our volunteers, both local & travelling for their assistance.
